Science

Marking

To use 'book looks' to Monitor marking within Science ensuring that tasks are appropriately differentiated and questioning and targeting is effective.

Assessment

Develop assessment strategies and APP documents linked to the new curriculum with a focus on AT1.
Monitor use of Collins assessment tools use of effective target setting.

Teaching and Learning

Monitor using learning walks and observations.

PDM's

Deliver PDM's to update and monitor the teaching and learning in Science.
Implement Chris Quigley milestones for science.

New Curriculum

Develop the long term planning matrix in line with the new curriculum /Collins Science and cornerstones.
Ensure that each class receives the correct coverage.

New Resources

Update the outside science area, nature and animal based for school pets.

Audit the Science resources and purchase new ones in line with the curriculum and need.

Independence

Encourage independent thinking and reasoning through experimentation and investigation.
