

School Improvement Priorities

2017 2018 Geography

Develop opportunities for outdoor learning to raise attainment in Geography

Implement the new curriculum, ensuring continuity and progression across year groups.

Develop the school grounds to promote more teaching and learning opportunities

Develop opportunities for Geography to be taught through the creative curriculum

Develop the opportunities for enquiry based learning to take place, allowing children to become independent learners

Establish clearer planning for Geography ensuring that all staff are aware of individual child's attainment in line with the new curriculum.

Encourage staff to use the National Curriculum level descriptors when planning innovative units of study to allow nature progression and challenge

Develop the resources within school to ensure that lessons are vibrant and motivating

Moderate books and conduct learning walks when geography is focus, to assess the continuity and progress across the school

Undertake a whole school project to raise the profile of Geography within school

Establish forest schools within school, utilising the skills of Miss Western, Miss Martin and Miss Goldingay
