

Matthew's C.E (Aided) Primary School and Nursery Centre

'I can do all things because Christ gives me strength' Philippians 4:13

Friday Feature: 6th February 2026

This half-term we are focusing on the Christian Value of **Courage**

Be strong and courageous. Do not be frightened, and do not be dismayed, for the LORD your God is with you wherever you go. Joshua 1:9

Tennis

Today we have been lucky enough to have a Tennis Instructor from the Telford Tennis Centre working with children right across school. Everyone has had a fantastic day and learned lots of new skills!

Cake Sale

On Wednesday and Thursday we hosted a cake sale in the hall in aid of the Lingen Davies Cancer Support charity. Unfortunately cancer has touched the lives of many of our school community over the last couple of years. Thanks to the amazing generosity of our parents we raised an incredible £238.50! Thank you so much!

Valentines 13th February

On Friday 13th February we are holding a "valentines" mufti—asking children to wear red or pink for valentines. This will be a day to reflect on being kind—"do something kind for someone else".

Christian Value Celebration

Here at St Matthew's we love to celebrate when someone demonstrates the Christian Values and to show everyone how proud we are, we now have Christian Value books. When a child is seen demonstrating a Christian Value their name will be added to the appropriate book and they will receive a certificate. This half term our focus value has been courage. We

Future Dates

| | |
|--------------------------|---------------------|
| 13th February | Valentine Mufti Day |
| 16th to 20th February | Half Term |
| Friday 6th March | World Book Day |
| 30th March to 10th April | Easter Break |
| 4th May | Bank Holiday |
| 25th to 29th May | Half Term |
| 1st June | PD Day |
| 17th July | Break up for Summer |

Weekly Prayer

Father God,
We ask You to bless our school, our work, our play and everything we do together.
Help us:
to be strong in heart like St Peter
to see and speak the truth like St Paul;
to love You and all Your children and
to do our best to make our school successful and happy.
We ask this through Jesus Christ our Lord.
Amen

look forward to filling the value books up with lots of names of the incredible children who display the Christian values around St Matthew's and in our wider school community.

What Parents & Educators Need to Know about

YOUTUBE

WHAT ARE THE RISKS?

INAPPROPRIATE CONTENT

YouTube is free and can be accessed via numerous devices, even without creating a YouTube account. Some content is flagged as 'age-restricted' (requiring the user to be logged into an account with a verified age of 18), but children can still view some mildly inappropriate content. This can include profanity and violence, which some young users may find upsetting.

CONNECT WITH STRANGERS

YouTube recommends videos related to what the user has previously watched on their account, aiming to provide content that will interest them. This is intended to be helpful but it can also lead to binge-watching and screen addiction – especially if 'auto-play' is active. Users without an account are shown popular videos from the last 24 hours, which might not always be suitable for children.

RADICALISATION

YouTube's algorithm tends to promote content that's getting the most traffic – a lot of which can be quite extreme. This can be fine for harmless topics, but YouTube isn't regulated like television, and that means that conspiracy theories, fake news and hateful ideologies can occasionally surface to warp impressionable minds all too easily. Remember – the more they watch, the more they'll be recommended.

CONNECTING WITH STRANGERS

YouTube is a social media platform which allows people to interact with other (usually unknown) users. Account holders can leave comments on any video they have access to, as well as message other users directly. Connecting with strangers online can potentially lead to children being exposed to adult language, cyberbullying and – in the worst cases – online predators. If a child is creating content themselves, this can increase the likelihood of them becoming a target.

TRENDS AND CHALLENGES

YouTube is teeming with trends and challenges, some of which are fun to watch and join in with. Children often find these immensely entertaining and might want to try them out. Most challenges tend to be safe, but many others may cause physical or emotional harm to children who watch or copy them. The painful 'salt and ice challenge' – where people use these two ingredients to burn their skin – is just one of many examples.

SNEAKY SCAMMERS

The comments sections of popular content creators regularly have scammers posing as that influencer, attempting to lure users into clicking on their phishing links. Scammers impersonate YouTube users by adopting their names and profile images, and often offer cash gifts or 'get rich quick' schemes. Children may not realise that these users aren't who they claim to be.

Advice for Parents & Educators

APPLY RESTRICTED MODE

For older children, Restricted Mode is an optional setting that prevents YouTube from showing inappropriate material (such as drug and alcohol abuse, graphic violence, and sexual content) to underage viewers. To prevent children from changing across age-inappropriate content on the platform, we would recommend enabling Restricted Mode on each device that they use to access YouTube. It's worth also turning the auto-play feature off, to prevent YouTube's algorithm automatically recommending something inappropriate.

TRY GOOGLE FAMILY

Creating a Google Family account allows parents and carers to monitor what their child is watching, uploading, and sharing with other users. It will also display their recently watched videos, searches, and recommended videos. In general, a Google Family account gives a parent or carer oversight of how their child uses sites like YouTube and helps to ensure that they are only accessing appropriate content.

MONITOR ENGAGEMENT

YouTube is the online viewing platform of choice for billions of people, many of them under 18. Younger children will watch different content to older ones, of course. You may want to keep an eye on how children interact with this material – and, if applicable, with content creators – to understand what they're interested in. Remember that creators often share content outside of YouTube, so don't ignore their web presence elsewhere!

CONSIDER YOUTUBE KIDS

It's possible to sidestep most inappropriate content completely via Google's own YouTube Kids app for Android handsets and iPhone. This lets you filter content by 'preschool' (4 and under), 'younger' (ages 5 to 8) and 'older' (ages 9 to 12). This isn't a perfect substitute for personal supervision, as the app's filtering system is automated, and Google can't manually review all videos.

CHECK PRIVACY SETTINGS

YouTube gives users the option of uploading videos as 'private' or 'unlisted' – so they could be shared exclusively with family and friends, for example. Comments on videos can also be disabled and channels that a child is subscribed to can be hidden. If the child is only uploading videos set as 'private', they are far less likely to receive direct messages from strangers.

LIMIT SPENDING

Although YouTube is free, it does offer some in-app purchases. For example, users can rent and buy TV shows and movies to watch. If you're like to avoid children purchasing content online, limit their access to online payment methods. Many parents have discovered the hard way that a child happily consuming a paid-for series quickly leads to an unexpected bill!
